

MARKET REPORT – WEEK 14

BASED ON SALES AND PURCHASES OF VESSELS WEEK ENDED FRIDAY 5TH APRIL 2024.

Last week was much quieter in the shipping markets due to a combination of Easter holidays and the 3rd week of Ramadan and this week is likely to remain much the same as Ramadan ends on 10th /11th leading to 3 days of Eid celebrations which means most Islamic countries will be on holidays all this week.

Accordingly, the BDI posted losses across all indexes at close on Friday: The BCI was down -13.8% w-o-w, the BPI -9.8%, BSI -5.3% and the BHSI -4.8%, which combined to produce a -10.6% w-o-w overall loss for the BDI.

Both wet and dry S+P volume were also noticeably lower last week but this is more because of a lack of sought after modern eco tonnages for sale than any holidays, moreover those deals getting done tend to be at or above benchmark levels which further demonstrates buying demand is currently in excess of supply.

In the subcontinent recycling sectors we note levels on offer from India, which has recently been offering the lowest rates for ships, have increased by \$10-15 per LDT due to an increase in domestic steel prices. This still leaves India still slightly behind Bangladesh and Pakistan but we anticipate they will soon offer at parity. Meanwhile Bangladeshi breakers have slightly decreased their rates on offer due to the upcoming holidays plus ongoing LC and weak currency issues. Pakistan will also likely be quieter this next week or so due to Eid etc.
